

High-level EUROPA documentation has been moved to the [EUROPA wiki page](#). However, Doxygen provides a useful reference manual for the code itself as well as an overview of the code structure.

Doxygen docs are available for the following versions of the EUROPA code:

- [Current](#) (updated nightly)
- [EUROPA 2.1.1](#)
- [EUROPA 2.1.0](#)

(Note: To edit this page, go to [DoxyGen](#))
